Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PROCEEDINGS

OF THE

ROYAL IRISH ACADEMY.

VOL. VI.

DUBLIN:
PRINTED BY M. H. GILL,
PRINTER TO THE ACADEMY.
MDCCCLVIII.

CONTENTS.

VOLUME VI.

1853–1857.

PAGE.

On the Solution of Linear Differential Equations. By the Rev. Charles Graves, D. D. 1

On the Fresco Painting in the Abbey of Knockmoy. By the Rev. J. H. Todd, D. D. 3

On the Construction of the Cassegrain Telescope. By the Rev. T. R. Robinson, D. D. 20

On the Magnetic Influence of the Moon. By the Rev. H. Lloyd, D. D. . 28, 194

On the Meteorology of Ireland (second part), as deduced from the R. I. A. Observations made in 1851. By the Rev. H. Lloyd, D. D. 31

On the Structure of the Starch Granule obtained from the Potato. By G. J. Allman, M. D. 31

On the Method of solving a large class of Linear Differential Equations by the application of certain Theorems in the Calculus of Operations. By the Rev. Charles Graves, D. D. 34

On the results of a Series of Experiments on the Decomposition of Water by the Iron Galvanic Battery. By the Rev. Professor Callan. 37

On a new method of Measuring the Angular Aperture of the Objectives of Microscopes. By the Rev. T. R. Robinson, D. D. 38

On an ancient terraced Gravel Hill near Castle Blakeney, County of Galway. By D. H. Kelly, Esq. 49

On a remarkable Lunar Halo seen on Feb. 10, 1854. By R. Mallet, Esq. . 55

On the British Earthquake of 9th Nov. 1852. By R. Mallet, Esq. 58

On the Transmutation of Metals. By Geo. J. Knox, Esq. 59

On a new method of determining approximately the Spherical Aberration of a Combination of Lenses for Microscopic purposes. By Thomas Grubb, Esq. 59

On the Integrations of certain Equations. By Sir. Wm. R. Hamilton. . . 62

On the Laws of Diurnal Tide at Donaghadee, County of Down, and at Bunowen, County of Galway. By the Rev. S. Haughton. 72

A notice of some anomalous facts respecting the Tides in King George's Sound, Australia. By W. H. Harvey, M. D. 72

On Assyrian Weights. By the Rev. Edward Hincks, D. D. 72

On the Inscribed Stones in the Isle of Man. By the Rev. J. G. Cumming. . 73

PAGE.

On the importance of making a Collection of Rubbings of the Inscribed Stones of Ireland. By J. O. Westwood, Esq. 77

On the last bright Comet. By Andrew Graham, Esq. 80

On the Comparison of Adjectives in the ancient Irish Language. By the Rev. Charles Graves, D. D. 84

On Experiments to determine the Velocities of Rifle Bullets. By the Rev. S. Haughton. 85

The Calculus of Quaternions in connexion with the celebrated Theorem of Dupin. By Sir W. R. Hamilton, LL. D. 86

On the Barometrical Measurement of the Peak of Teneriffe. By J. Beete Jukes, Esq. 89

On the Ancient Name of the City of Dublin. By Charles Haliday, Esq. . 95

On the MSS. of John Colgan, preserved at St. Isidore's, Rome. By Charles Mac Donnell, Esq. 95

On the Monastic Foundations of the Irish on the Continent. By Charles P. Mac Donnell, Esq. 103

On the same. By the Rev. Charles Graves, D. D. 112

On the Properties of Electro-Magnets (second part). By the Rev. T. R. Robinson, D. D. 113

On the Personal Pronouns of the Assyrian and other Languages, especially Hebrew. By the Rev. Edward Hincks, D. D. 113

On the Principles which regulate interchange of Symbols in certain Symbolic Equations. By the Rev. Charles Graves, D. D. 114, 144

On some Extensions of Quaternions. By Sir W. R. Hamilton, LL.D. . . 114

On *Aphanizomenon Flos-aquæ*. By G. J. Allman, M. D. 115

On a species of *Peridinea*. By G. J. Allman, M. D. 118

On the Meteorology of Ireland. By the Rev. H. Lloyd, D. D. 120

On the Vine Disease in Ireland. By D. Moore, Esq. 120

On the Chronology of the Twenty-sixth Egyptian Dynasty. By the Rev. Edward Hincks, D. D. 125

On Assyrian Mythology. By the Rev. Edward Hincks, D. D. 128

On the Reflexion of Plane Polarized Light from the surface of Transparent Bodies. By the Rev. Samuel Haughton. 129

On the relative quantities of Potash and Soda in the Felspar of the Dublin and Wicklow Granites. By the Rev. J. A. Galbraith. 134

On the same. By the Rev. S. Haughton. 143

On the Marine Botany of Western Australia. By W. H. Harvey, M. D. . 152

On the Dying Gladiator. By Robert Ball, LL. D. 152

On the use of the Hygrometer in Barometric Measurements of Heights. By Capt. H. L. Renny, C. E. 155

On the existence of a true Medusoid Structure in the Male Gemmæ of Hydra. By G. J. Allman, M. D. 155

A Plan for ascertaining the Deviation of Ships' Compasses arising from Local Attraction. By T. A. Dillon, Esq. 157

On the Solution of the Equation of Laplace's Functions. By the Rev. Charles Graves, D. D. 162, 186

On the Draining of the Haarlem Lake. By Samuel Downing, LL. D. . . 173

PAGE.

On the Chemical Composition and Optical Properties of the Mica of the Dublin, Wicklow, and Carlow Granites. By the Rev. Samuel Haughton. . 176

On the Solution of the Equation of Laplace's Functions. By Sir W. R. Hamilton, LL. D. 181

On Ecliptic Catalogues. By Edward J. Cooper, Esq. 194

On certain Notes in the Ogham Character on the margin of an ancient MS. of Priscian. By the Rev. Charles Graves, D. D. 199, 209

On Laplace's Equation and the Calculus of Quaternions. By the Rev. Robert Carmichael. 216

On the same. By the Rev. Charles Graves, D. D. 220

On an Inscription in the Church of Galway. By the Rev. J. H. Todd, D. D. 223

On the Inscription found on the base of the Cross which stands in the principal street in Cong. By the Rev. J. H. Todd, D.D. 225

Address to the Earl of Carlisle, Lord Lieutenant of Ireland. 226

Answer to the Address. 229

On the Granites of Leinster. By the Rev. Samuel Haughton. 230

On the same. By Richard Griffith, LL. D. 230

On the Molecular Formation of Crystals. By Robt. T. Forster, Esq. . . . 240

On the Precipitate formed in the preparation of Alkaline Phosphates. By John Aldridge, M. D. 244

On the subject of Dreams. By the Rev. James Wills, D. D. 247

On the Ogham Inscriptions found on a Monument at Bressay, in Shetland. By the Rev. Charles Graves, D. D. 248

On some Symbolical Extensions of Quaternions, and on a Theory of Associative Quines, and on some Geometrical Applications of his Theories. By Sir W. R. Hamilton, LL. D. 250

On a peculiar Organic Production forwarded by W. H. Harvey, M. D., from Western Australia. By G. J. Allman, M. D. 250

On the Cover of the Gospels of St. Molaise. By George Petrie, LL. D. . . 251

On the Revival of Italian Literature in the Fourteenth Century. By J. F. Waller, LL. D. 251

On the Bursting of Ordnance when firing Heated Shot. By Robt. Mallet, Esq. 251

On certain Animals mentioned in the Assyrian Inscriptions. By the Rev. Edward Hincks, D. D. 251

On some new Geometrical Applications of Quaternions. By Sir W. R. Hamilton, LL. D. 260

On the early Discovery and extensive Adoption of the Bissextile Intercalation. By the Rev. F. Nolan, LL. D., F. R. S. 261

On a Babylonian Tablet in the British Museum. By the Rev. Edward Hincks, D. D. 270

On a remarkable Phenomenon observed on Lough Erne. By John Barton, Esq. 271

On Reciprocal Surfaces. By the Rev. George Salmon. 273

On the Barometric Measurement of Mountain Heights. By the Rev. Joseph A. Galbraith. 276

On the Causes of certain Phenomena observed on Lough Erne. By Henry Hennessy, Esq. 279

On the Luminous Phenomena produced by the discharge of Ruhmkorff's Induction Apparatus in Vacuo. By the Rev. T. R. Robinson, D. D. . 283, 426

PAGE.

On certain Formulæ which occur in the Works of Marcellus. By Dr. Jacob Grimm, H. M. R. I. A. 290

On the same. By the Rev. J. H. Todd, D. D. 291

On the Name said to have been given to St. Patrick when a Captive in Ireland. By the Rev. J. H. Todd, D. D. 292

On Meteorology. By Henry Hennessy, Esq. 299

On an Optical Phenomenon observed in July, 1856, while on a voyage to Havre. By Henry Hennessy, Esq. 301

On the Extension of Taylor's Theorem to Non-Communicative Symbols. By the Rev. Charles Graves, D. D. 302

On the Locality where the ancient Gold Fibula, called the Dalriada Brooch, was found. By James Gilmour, Esq. 302

On the Action of the Wind in producing Waves in a Glass Vivarium. By D. J. Corrigan, M. D. 303

On the Castle and Manor of Baggotrath. By J. Huband Smith, Esq. . . 304

On a new Experimental Hydraulic Formula for finding the Velocity of Water in Water-Channels. By John Neville, Esq. 311

On a Geometrical Extension of the Calculus of Quaternions. By Sir William R. Hamilton, LL. D. 311

Inaugural Address of the President, Rev. J. H. Todd, D. D. 319

On some Properties of Solid Figures revolving on Axes in Supports at the Surfaces of Fluids. By Gilbert Sanders, Esq. 338

On the Identity of the Chronological System of the Egyptian Priests, as explained by Herodotus, and that of Manetho. By Edward Clibborn, Esq. 347

On the Stomach of the Zebu. By John B. Barker, M. B. 351

On the Solution of Cubic Equations. By Thomas J. Campbell, Esq. . . . 352

On the Depth of the Ocean deducible from Tidal Observations. By the Rev. Samuel Haughton. 354

On the Introduction and Period of the general use of the Potato in Ireland. By W. R. Wilde, Esq. 356

On the Effect of the Internal Fluidity of the Earth on the Length of the Day. By the Rev. J. H. Jellett. 372

On the Solution of the Equation of Continuity of an Incompressible Fluid. By George Boole, LL. D. 375

On the same. By the Rev. Charles Graves, D. D. 385

On the Scandinavian Antiquities of Dublin. By Charles Haliday, Esq. . . 386

Letter from F. M. Jennings, Esq., relating to Silver Ornaments collected by himself in Morocco, and presented to the Royal Irish Academy. . . . 386

On the Influence of the Earth's Internal Structure on the Length of the Day. By Henry Hennessy, Esq. 388

On Inscriptions from the Market Crosses at Campbellton, in Kyntire, and Inverary. By J. Huband Smith, Esq. 390

On an ancient Missal, described by Dr. O'Conor in his Catalogue of the Stowe MSS. By the Rev. J. H. Todd, D. D. 393

On a MS. of Dr. Willoughby's, written in 1690, "On the Climate and Diseases of Ireland." By W. R. Wilde, Esq. 399

On a new System of Roots of Unity. By Sir W. R. Hamilton, LL. D. . . 415

PAGE.

An Autograph Letter of the late Dr. Charles Lucas, presented by Edward Bewley, M. D. 416

On some Experiments on the Poisonous Properties of Strychnine and Nicotine. By the Rev. Samuel Haughton. 420

On an Ogham Inscription. By Richard Hitchcock, Esq. 439

On some Roman Coins found near Rathfarnham. By George Petrie, LL. D. 441

A Biographical Notice of Colonel Jules Terence O'Reilly. By A. O'Reilly, Esq. 445

On the early System of Abbatial Succession in the Irish Monasteries. By the Rev. W. Reeves, D. D. 447

On the Irish Abbey of Honau, on the Rhine. By the Rev. W. Reeves, D. D. 452

On the Icosian Calculus. By Sir William R. Hamilton, LL. D. 462

Address on the Utility of Antiquarian Collections in relation to the Pre-Historic Annals of Europe. By the late J. M. Kemble, Esq. 462

On Professor Mac Cullagh's Theorem of the Polar Plane. By A. Cayley, Esq. 481

On a movable Horizontal Sun-dial. By M. Donovan, Esq. 491

On a new and singular Acoustic Phenomenon. By M. Donovan, Esq. . . 499

On a new Arrangement of Grove's Galvanic Battery. By G. J. Stoney, Esq. 499

On the Expedition to the Neighbourhood of the Magnetic Pole about to leave England. By the Rev. Samuel Haughton. 499

On the Distribution of Heat over the Island of Great Britain. By Henry Hennessy, Esq. 506

On the General Expression by Quaternions for Cones of the Third Order. By Sir W. R. Hamilton, LL. D. 506

Memorial to the Rt. Hon. Lord Palmerston, praying the "Resolute" to be fitted for another Arctic Exploration. 506

On the Foundation of Archbishop Marsh's Library. By J. Huband Smith, Esq. 512

On the General Equation in Quaternions for Cones of the Third Order. By Sir W. R. Hamilton, LL. D. 512

Letter from the Rev. J. H. Todd, D. D., to the Government, proposing to have the Materials collected for the Ordnance Survey deposited in the Academy. 515

Answer from Lieut.-Col. Larcom. 516

Letter from Captain Leach. 516

On the Personal Pronouns in their most ancient form. By the Rev. Edward Hincks, D. D. 518

On a certain Harmonic Property of the Envelope of the Chord connecting two corresponding points of the Hessian of a Cubic Cone. By Sir Wm. R. Hamilton, LL. D. 524

On a Fundamental Theorem respecting Congruences, affecting a class of Complex Integers, which involve the Imaginary Cube Roots of Unity. By J. T. Graves, Esq. 525

ANTIQUITIES BOUGHT,—pp. 203, 313.

,, EXCHANGED,—p. 155.

BY-LAWS,—pp. 17, 31, 38, 71, 319, 499.

DEPOSIT OF ANTIQUITIES,—p. 526.

DONATIONS *of Antiquities*,—pp. 19, 48, 58, 71, 88, 130, 131, 160, 161, 171, 172, 179, 250, 275, 277, 300, 419, 424, 451, 511, 512, 525, 528; ***Books***,—pp. 1, 63, 154, 261, 346, 451; MSS.,—pp. 1, 131, 416, 525; ***Maps***,—pp. 1, 510; *Miscellaneous Articles*,—pp. 47, 88, 386, 419, 445, 451, 525, 528; *Models, &c.*,—pp. 17, 31, 94, 123, 311; *Photographs, &c.*,—pp. 58, 223, 225, 300, 419, 451, 528; *Coins, &c.*,—pp. 277, 351, 445, 525; *Pictures, &c.*,—pp. 1, 345, 416.

ELECTIONS *of Members*,—pp. 31, 49, 71, 73, 155, 173, 209, 229, 261, 301, 319, 352, 375, 388, 447, 462, 498, 506, 513, 527; *Honorary Members*,—p. 64; *President and Council*,—pp. 69 (1854), 207 (1855), 317 (1856), 497 (1857), 505.

EXHIBITIONS *of Antiquities*,—pp. 19, 94, 112, 113, 303, 388, 526; *Coins*,—p. 224; *Miscellaneous Articles*,—pp. 180, 311, 388; *Photographs, &c.*,—pp. 71, 390, 391.

GRANTS *for Antiquities*,—pp. 95, 155, 251, 304; *Books*,—p. 304; *Catalogue of Museum*,—p. 497; *Payments*,—pp. 209, 513; *Photographs*,—p. 17.

GRANTS WITHDRAWN,—p. 513.

OBITUARY NOTICES,—pp. 68, 204, 314, 495, 498.

PARLIAMENTARY GRANTS,—pp. 261, 279.

RECOMMENDATIONS OF COUNCIL,—pp. 70, 133, 209, 261, 374, 420, 425 (447), 513, 526, 527.

RESOLUTIONS OF THE ACADEMY,—273, 279, 304, 315, 346, 374, 497, 498, 504, 510, 528.

VICE-PRESIDENTS NOMINATED,—pp. 70, 208, 318, 497.

APPENDICES.

INDEX

OF

CONTRIBUTORS' NAMES TO PROCEEDINGS.

VOLUME VI.

Aldridge, 244.—Allman, 31, 115, 118, 155, 250.

Ball, R., 152.—Barker, J. B., 351.—Barton, 271.—Bewley, 416.—Boole, 375.

Callan, 37.—Campbell, 352.—Carmichael, 216, Cayley, 481.—Clibborn, 347.—Cooper, 194.—Corrigan, 303.—Cumming, 73.

Dillon, 157.—Donovan, 491, 499.—Downing, 173.

Forster, 240.

Galbraith, 134, 276.—Gilmour, 302.—Graham, 80.—Graves, C., 1, 34, 84, 112, 114, 144, 162, 186, 199, 209, 220, 221, 248, 302, 385.—Graves, J. T., 525.—Griffith, 230.—Grimm, 290.—Grubb, 59.

Haliday, C., 95, 386.—Hamilton, Sir W. R., 62, 86, 114, 181, 250, 260, 311, 415, 462, 506, 512, 524.—Harvey, 72, 152.—Haughton, 72, 85, 129, 143, 176, 230, 354, 420, 499.—Hennessy, 279, 299, 301, 388, 506.—Hincks, 72, 113, 125, 128, 251, 270, 518.—Hitchcock, 439.

Jellett, 372.—Jennings, 386.—Jukes, 89.

Kelly, D. H., 49.—Kemble, 462.—Knox, G. J., 59.

Larcom, 516.—Leach, 516.—Lloyd, H., 28, 31, 120, 194.

Mac Donnell, C. P., 95, 103.—Mallet, 55, 58, 251.—Moore, D., 120.

Neville, 311.—Nolan, 261.

O'Reilly, 445.

Petrie, 251, 441.

Reeves, 447, 452.—Renny, 155.—Robinson, 20, 38, 113, 283, 426.

Salmon, 273.—Sanders, 338.—Smith, J. H., 304, 390, 512.—Stoney, G. J., 499.

Todd, 3, 223, 225, 291, 292, 319, 393, 515.

Waller, 251.—Westwood, 77.—Wilde, 356, 399.—Wills, 247.
